

# A SQUARE DANCE TRAVEL GUIDE<sup>©</sup>

JULY

## DEDICATION

JEAN EFFRON, Albuquerque, New Mexico, is a repeat performer with her home club, The Wilde Bunch. She is so respected by her fellow dancers that she was asked to hold a second term as president. When I first met Jean in March, 1987, at the Rainbeaus' fly-in, she was a new dancer. I have never taken the opportunity to talk at length with Jean, but I began listening to her after reading a memorial tribute she had written for a Wilde Buncher. It was brief, but eloquent, and showed the loving toil it had taken to write about her feelings.

Jean is sought out by her members for advice, mediation, and compassion. You will always hear The Wilde Bunch members talking about Jean's abilities to diffuse conflict. During this past year, the club had the privilege of having a foreign university student as a square dance class and club member. In several conversations I had with the Danish student, he commented many times about Jean's tremendous human relations talents. Certainly, if Jean's abilities can cut through language and cultural barriers by example, you would have to believe the compliments given to her by those whom she serves year after year. If an element of one's character is judged by the company one keeps, I am honored to have been in the presence of Jean Effron.

## FOREWORD

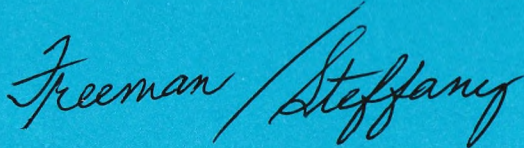

In speaking with so many club workers, not just leaders, I became aware that the more-established clubs are encountering the same situations. One statistic that is quoted in the straight community is that the average dance-life of a square dancer is about three years. In the gay community that seems to be a little longer. However, many of the clubs are now at least five years old. Many of the former Trojans are no longer with the clubs. A majority of the clubs are experiencing slow growth. The remaining original shakers and movers now find themselves coping with many of the original issues; those of rebuilding. The gay square dance community is healthy and growing.

It is very important that you as clubs talk with each other. You do not have such unique situations that another club(s) in the IAGSDC cannot offer advice or constructive comment. Your next door neighbor may not have your problems, but someone does. I found that Atlanta, Georgia, and Bellingham, Washington, share an almost identical situation. If you don't talk, how will you ever know?

This Guide is to help you locate gay square dance clubs when you are traveling. As with any publication that is a representation of a growing body, the information is constantly changing. It is wise to confirm dance schedules prior to your trip.

There are other dance activities associated with square dancing, such as clogging, bootscooting, and performance-only groups. This TRAVEL GUIDE is not intended to encompass all these activities but focuses on square dance opportunities that are open to all who know the Callerlab format. HOWEVER, this year I have expanded the contents to include, in those cities where there are gay square dance clubs, country & western dance programs in gay bars that are outside the clubs' square dance programs.

I have attempted to be as thorough and accurate as possible in the presentation of this data. I apologize for any mistakes.

THE CONTENTS OF THIS GUIDE ARE COPYRIGHTED AND MAY NOT BE REPRODUCED.  
THANK YOU FOR YOUR COOPERATION AND CONSIDERATION.
