

COMPLIANCE ASSESSMENT

This is to confirm that:

George Augustus Bassadone (GB)

has undergone a comprehensive compliance assessment established by the Network Nervous System (NNS) to operate as an Approved Node Provider on the Internet Computer Protocol (ICP) network. The findings outlined in this report reflect the results of that assessment.

Assessment Findings:

1. Identification Compliance

GB has successfully completed identity verification and submitted all required supporting documentation.

2. Hardware Requirements

According to the payment invoice provided by GB, the hardware listed appears to align with Generation 2 configurations, specifically the Supermicro AS -1124US-TNRP model. According to presented documentation (invoices for services and purchase of the servers) there are 18 nodes based at the data center Cloud9 in Georgia and 7 nodes located at data center Delska located in Lithuania. The hardware has not been physically inspected, and this assessment is based solely on the information outlined in the payment invoice and videos as submitted by the node provider.

3. Source of Funds

As part of the enhanced due diligence and screening process, no indications were identified to suggest that the funds used to acquire nodes from GB originate from money laundering, terrorist financing, or any other illicit activities.

4. Ownership and Control

Based on the information GB is the Node Provider with 18 nodes located at the data center Cloud9 in Georgia and 7 nodes located at data center Delska located in Lithuania.

GB provided documentation confirming purchase of 25 servers with the invoice showing specification of the servers. Additionally, GB provided 4 videos as a proof of existence of the servers.

According to self-declaration node machines are in accordance with the required Hardware configuration for running IC network as described on the IC Wiki ([Node Provider Self Declaration Form - George Bassadone - Google Docs](#)).

5. Independence from Other Node Providers

Based on a self-declaration and subsequent verification through documentation review and interview with GB, the following statements can be made:

- As of the date of this assessment, GB confirmed that he owns and control 50% of Geo Nodes together with Tina Rohner (TR).
- GB holds direct relationship with another Node Provider who is his wife Geeta Kalwani (GK).
- Based on the documentation provided and the information available at this stage, GB does not appear to be part of any holding, parent, or subsidiary structure involving, or otherwise affiliated with, any other ICP Node Provider.
- According to the documents submitted and the self-declaration, there is no clear indication at this stage that GB is engaged in any loan arrangements, debt financing, or similar financial relationships with other Node Providers or their respective UBOs.

6. Additional Remarks

According to Internal Message communication provided by GB, he bought 18 servers which later on was established in data centre in Cloud9 in Georgia and 7 nodes located at data center Delska located in Lithuania. GB holds additionally 50% of Geo Nodes together with TR.

GB submitted supporting documentation such as bank letter, income declaration and salary confirmation from employer to verify the source of funds and confirm the payment.
