Players Sea Org Improv, The
Doubleclicks**

RED TEAM

1:30pm

Vista Lounge

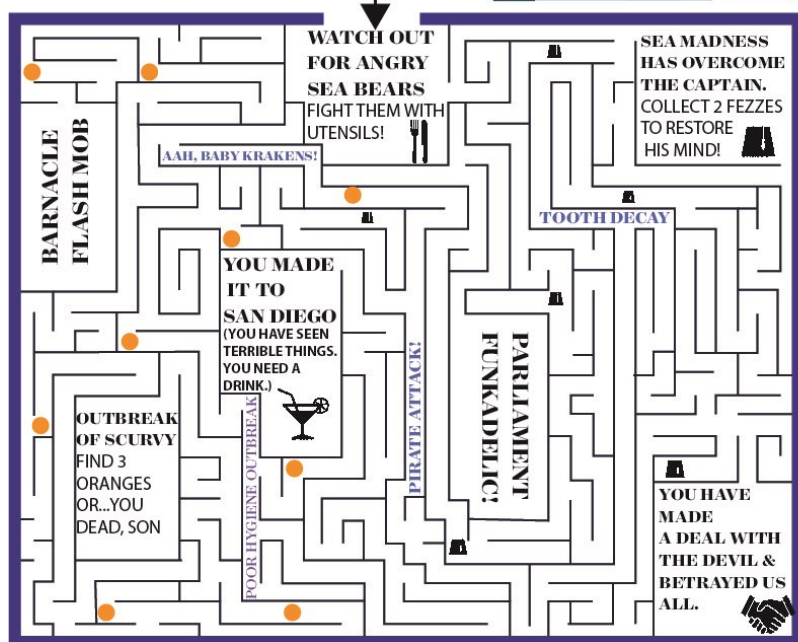

A message from Dr. Monica Brunelli

We may have a dangerous case of Cabin Fever loose on the ship, but our crack team of medical professionals is on the case. If you find our physicians, ask them for their impeccable medical credentials. Now that a lot of you have contracted Cabin Fever, I expect you'll want to head poolside and just relax and face your doom.

BEGIN JOURNEY BACK TO SAN DIEGO

The Land Sea-Bear

Terror of the High Seas-Lands, the land sea bear is a majestic creature, depicted here brandishing its traditional axe and fez. They subsist on a simple diet of tacos and margaritas.

ERRATA

The Editorial Staff deeply regrets the following errors in the March 8 edition:

[1] On page 4, the map of Loreto gave the false impression that there was a kraken lying in wait off the coast of Baja. This was a mistake: there are in fact three (3) krakens.

[2] The Gadsden Purchase.

Day 6 - Thursday, March 9, 2017

A T S E A / B A H I A M A G D A L E N A

Weather: 84°F / 29°C, Sunny

A navy is essentially and necessarily aristocratic. True as may be the political principles for which we are now contending they can never be practically applied or even admitted on board ship, out of port, or off soundings. This may seem a hardship, but it is nevertheless the simplest of truths. Whilst the ships sent forth by the Congress may and must fight for the principles of human rights and republican freedom, the ships themselves must be ruled and commanded at sea under a system of absolute despotism.

—John Paul Jones, *Letter to Congress*, 1775

SPONSOR SPOTLIGHT THE BROKEN TOKEN

Stop by the display area in the Shopping Arcade (Deck 3 forward) any time from 1:30-3:30pm to check out The Broken Token and talk to the people behind it. No purchase necessary!

Naval intelligence report: We are still on a boat. We are cruising through Bahia Magdalena. All is well.

FROM THE SHIP’S PSYCHOHISTORIAN

The population under scrutiny is oblivious to the existence of the science of psychohistory. The time periods dealt with are in the range of 3 generations. The population must be in the billions (± 75 billion) for a statistical probability to have a psychohistorical validity. Given these constraints, I do not think it a meaningful use of my time to predict when the onboard Wifi will return. Thank you.

CAPTAIN’ “S” LOG

March 9. 2017. Drills. Drills. Drills. I want the crew in top form when we finally sight the White Whale. Oh, yes. Do they think I can’t hear their whispers? I see their hurried glances and murmurs of discontent. I’ll be keel-hauled if I let the blasted *Oosterdam* (rhymes with Toasterdam) and its crew take home more whale oil than us!

WITH THANKS, AS ALWAYS, TO OUR KIND SPONSORS
