**Good news!** The new *LP News* is done and on the way to members. But we also have a related...

### Opportunity!

If you're not yet a dues-paying member of the Libertarian Party, this is your *LEVERAGED* chance to become one. Keep reading, and I'll tell you what that leverage is below. **But...**

If you're already a member, I want to remind you of an old formula we used during the LP's years of greatest success. It goes like this...

**We propose it, you fund it, and we do it. Then we tell you about it.**

First comes the plan, then the progress. Plans and progress!

Some of our best growth came from following that pattern. It's a great system, except that...

Sometimes, the doing happens faster than the funding. So then the formula should become...

**We propose it, we do it, and you *REWARD* it!**

We proposed to revive LP News. ***We have done that.*** The first issue is in the mail. *But...*

We haven't yet reached our target funding amount for that revival. We have only \$3,000 of the \$6,000 goal. Fortunately...

A longtime member who wishes to remain anonymous, call him Donor X, has promised to give the final \$500 if we can make it to \$5,500.

If you're already a member, donate to reward the fact that we've completed the task we proposed. [Your contribution could be leveraged by \\$500 from Donor X. >>>](#)

[If you're not yet a member, any contribution above \\$25 will pay your membership dues, so long as you sign the non-aggression pledge. >>>](#)

That means your contribution is leveraged to become dues but also to win the extra \$500 from Donor X.

It would be much easier to reach this goal if one or two people donated \$1,000 or more.

Let's revive the pattern of proposing things and then doing them to create an upward spiral of constantly growing success. **Remember, your contribution is our budget.**
