

LIBERTARIAN

PARTY HISTORICAL PRESERVATION COMMITTEE

MEETING SUMMARY January 19, 2026

Date and Time: Monday, 19 January 2026 at 7:15pm Eastern time

Where: Online: Zoom

Committee Attendees: Caryn Ann Harlos, Joe Dehn, Sam Bohler, James Gholston, Andrew Kolstee

Other Attendees: none

The meeting was called to order at 7:18pm Eastern time.

Records of Previous Meetings: The minutes of the 15 December meeting, with one correction of a date, were approved without objection.

Site Technical: Sam reported that he submitted a ticket to MyWikis about the CloudFlare situation but had not yet received a reply. The biggest question is if there is some way to change the time before a user is required to "verify" again; several members of the committee related how the current short interval was making it difficult to do typical tasks in managing the site. We also would prefer that AI chatbots be able to access the site. It was also noted that this is preventing people using some older browsers from accessing the site. There was discussion of technical aspects of this situation, including how the various servers relate to each other, and of why MyWikis is doing this.

Site Statistics: Sam noted a recent spike in activity and mentioned various pages that were viewed frequently, including the Colorado platform, some people related to Colorado, the upcoming national convention, and the first issue of LP News.

Storage Unit: Caryn Ann said she had been to the storage unit recently but that her current schedule doesn't allow her to do as much there as previously.

Convention Memorial Committee: There was brief discussion of making sure that e-mail from people about recent deaths get forwarded to Lisa.

The meeting was adjourned at 7:49pm Eastern time.
