**Refurbished****WORKCENTRE™ 7800 MFP SERIES PRINT SYSTEM***(Unit shown above w/optional highcap tandem tray & Office Finisher LX)***Full-Color Copier, Multi-Function****COPY • PRINT • SCAN • FAX**

## WORKCENTRE™ 7800 MFP PRINT SYSTEM

WorkCentre 7800 series MFP printers are powered by the Xerox® ConnectKey™ Controller. The simple-to-implement system give you real, practical solutions that easily streamline how you communicate, process & share information, simplify complex paper-driven tasks, & drive down costs while keeping your data secure

### INNOVATION

Featuring the groundbreaking Xerox ConnectKey Controller, the WC 7800 series gives your customers the best combination of convenience for today's mobile professionals, productivity-enhancing solutions, leading-edge security, & powerful image quality & cost-saving capabilities. With print output speeds from 30 - 50 ppm for color pages, the WC 7800 series offers the performance & features to handle your customers' needs today, with the flexibility to adapt to tomorrow's demands

### PRODUCTIVITY

Xerox gives you tools & technologies that make it possible to automate common office workflows, to turn challenges into routine tasks & to simplify the way you share business-critical information.

Outstanding print quality is how you deliver your best work, & how you make your mark with your customers. With the WC 7800 series multifunction printer, you'll achieve high-impact color documents that impress customers & deliver results — while minimizing costs. The WC 7800 series, with advanced Hi-Q LED technology, helps you create professional-looking documents at the touch of a button.

With 1200x2400 dpi, photo- quality color images & crisp text, your output always makes a huge impact.

### BUSINESS SOLUTIONS

Print email, photos & important office documents directly from an iPhone or iPad with no software to download, no drivers to install, & no cables to connect. With AirPrint, the iPhone or iPad automatically locates & connects to the WorkCentre 7800 series device over the office Wi-Fi network.

When working offsite, use Xerox PrintBack with an iPhone, iPad or Android-based mobile device to print documents back at the office to the WC 7800 series.

Onboard scanning solutions come standard, & require no extra software or middleware: Single Touch Scan; on-box Optical Character Recognition with searchable PDF creation; secure PDG; print from & scan to USB device; Scan to Email, Mailbox, & Network. Plus, single pass scanning simultaneously scans both sides of two-sided documents, while high compression technology reduces file sizes.

Scan files directly into MS SharePoint & other Windows folders with Xerox ConnectKey for SharePoint. Plus, users can go beyond basic file storage & PDF creation by automatically converting documents to intelligent, structured data with easy file naming & routing tools.

Xerox ConnectKey Cloud provides easy, secure, scalable scanning to popular cloud-based repositories such as Google Docs, Salesforce.com, Office 365 & Dropbox, using custom designed workflows that leverage our Xerox EIP technology.

Along with the many standard security features, the Xerox ConnectKey Controller also includes McAfee technology integration, resulting in the industry's first lineup of MFP printers that protect themselves from potential outside threats. McAfee's whitelisting technology ensures only save, pre-approved files or functions are executed on devices, eliminating the need to manually update software levels against new security threats.
